

The new facility was specially planned as a WorkSource Center. The facility was designed in a customer friendly way with current technology and implemented processes and procedures for the effective delivery of one-stop services and activities as required by federal, state and local laws and policies. The new accommodations provided space for a number of one-stop partners who augment and share responsibility for front end services. The facility is open five days a week during the normal and customary business hours.

It must be noted that designation is of a temporary nature and subject to certification by the local board once the State of Washington produces local certification requirements.
